

UK DS 74803

74803 – Emtelle Drop Drill Kit

Product Description

The Emtelle Drop Drill provides installers with an underground customer drop tube installation solution when slot cutting is not an option. It can be used to drill under public footpaths, customer driveways and patios to then pull in a direct buried drop tube reducing the overall time and cost of the install.

Designed to be used in conjunction with an 18v 5.0ah battery drill, the quick release attachments and extensions are fitted and removed in seconds. The drill kit can be used to bore through underground materials and pull back a customer drop microduct without affecting anything above ground.

The kit is supplied with;

- X4 flexible drill rods/extensions
- X1 Drill piece attachment
- X1 Swivel Carrot attachment
- X1 Drill adaptor
- X1 Carry bag

Application

For use when the underground material is soft with light stones. Correctly laid footpaths, driveways and patios will have the most suitable base for the drill to bore its way through.

Prior to using the drill, the ground being drilled should be assessed to ensure that there are no other services which the drill may hit during installation. The drill is ideally suited for drilling through soft surfaces like sand and soil.

Features

- Quick Release 1 click attachments
- Flexible quick release 1 metre rod extensions
- 23mm tungsten carbide drill head
- Tapered thread swivel 'carrot' attachment to allow spinning of the drill
- 6-12mm inner diameter microduct pull back capability

UK DS 74803

Advantages

- Reduces disruption to paths, driveways, patios and more.
- Reduces overall cost of an installation
- Reduces installation time
- Environmentally friendly
- Small footprint

Material & Technical Data

Item	Material
Flexible extension rod	Co-polymer rods with aluminium end fittings
Drill Piece attachment	Stainless steel attachment with tungsten carbide drill head
Swivel Carrot attachment	Stainless steel attachment with steel tapered thread
Drill adaptor	Stainless steel
Carry bag	Polyester

Accessories and Replacement Parts

Item	Product Code
Flexible extension rod	74802
Drill Piece + Carrot attachment	74801
Drill adaptor	74800
Carry bag	74817
